

REFER-A-FRIEND PROGRAM GUIDELINES

- The Refer-A-Friend program is an ongoing initiative without any set deadline for referrals. Select studies will be part of the referral program. This will be determined by CNS staff depending on recruiting needs.
- Under this program, individuals have the opportunity to receive a payment for referring prospective study candidates to the CNS. To be eligible, the referred individual must be someone who has not previously contacted CNS regarding potential study participation and is not already listed in the CNS database.
- The person being referred must provide the CNS staff with the full name of the person who referred them during phone recruiting or during their screening visit.
- For each individual who fulfills the eligibility criteria for the Refer-A-Friend program, signs a consent form and successfully completes a full screening visit, the referring person will be entitled to a payment ranging from \$25 to \$150 (study dependent). Payment may be cash, electronic funds transfer, or in the form of a gift card.
- No details about the referred candidate will be disclosed back to the referrer
- A referral payment may only be earned once per candidate.
- Study staff and Investigators are not eligible for this program.
